

# SPOT THE SEMIPALMATED SANDPIPER

These two *peeps* look alike, but they're not! The photo shows a Semipalmated Sandpiper and a Least Sandpiper looking for food in a mudflat. Look carefully at the photo again and **try to identify the Semipalmated Sandpiper**. Check the text in the blog for some tips to help you. Need more help? Take a look at the next page!

# NEED SOME EXTRA HELP?

gray-brown plumage

warmer, browner plumage

black legs

straight black bill

yellow legs

down-curved bill
